our story

I first visited Tokyo in the winter of '94 and fell in love with the harmony and precision of the food, every bento was a work of art.

If beautiful food, fast was humanly possible then Japan was leading the way [70,000 people there are over one hundred years old].

I returned home determined to create a new kind of food place altogether.

beautiful food, beautifully done

Most of our Asian-inspired menu is under 500 [good] calories and packed with vitamins, fibre & protein. A third is plant-based and the majority costs under £7.00.

We have a half-price sale every evening to avoid food waste. itsu's wonderful teams are committed to beautiful food, beautifully done.

We pay them as much as we can afford, rather than as little we can get away with. They are our heart and hope for a bright future.

epic recycling

Please see how we've recycled this well-known Reading pizza place into a new and wonderful itsu. We even re-purposed the furniture, fixtures & fittings. You may know our [mainly] take-away itsu in the city centre; this new itsu one offers more of a restaurant experience, with more delicious hot food & zero fat fro-yo.

People love sharing tables & eating together, it's a fundamental human need that fuels relationships. itsu is living proof that good, nutritious food can go hand in hand with an easy-going menu & service style. I hope you enjoy it.
